CSL Launches the Nokia 9500 Provides a Truly Mobile Office with Wi-Fi Service

CSL launched the Nokia 9500, enabling customers to enjoy high-speed wireless internet access at over 100 hotspots throughout Hong Kong via CSL's Wi-Fi Service. The Nokia 9500 supports EDGE, wireless LAN technology, personal assistant, email, fax and built-in software for reading and editing Word, Excel and PowerPoint files. Its ultra-large screen enables much clearer internet browsing, providing a truly mobile office experience.

Now, customers can enjoy a free six-month Mobile Multimedia Service & CSL Wi-Fi Service package valued at \$828, with a free Bluetooth headset valued at \$499 upon purchase of a Nokia 9500 (original price: \$6,388), saving customers up to \$1,300!

In addition, CSL customers can enjoy a wide array of new services with the Nokia 9500:

1. "Mobile Bookstore": The first mobile bookstore service in Hong Kong with eight titles by popular authors at launch, covering popular genres such as office politics, beauty, feng-shui, dating, comics, ghost stories and love stories. Reading on the mobile phone is made easier via a downloadable Java browser.
2. Enhanced Email Alerts: An enhancement of Mobile Email Service supported by the Nokia 9500. When there is a new email, an alert with the email subject and an embedded link will be sent directly to your handset. Checking the new email requires just one click.
3. Auto Remote Backup Service: Your phonebook and calendar can be scheduled for automatic remote backup via the Nokia 9500.

CSL Wi-Fi Service Plan

Usage	Charge
Unlimited Usage	HK\$65 per month*
Pay As You Go	HK\$3 per 10 minutes

* Customers who subscribe to any data service plan above \$49 can enjoy the Wi-Fi service at \$50 per month.
