1010 / csl HKT.AI Super Assistants Plans

Notes:

- (1) The above 1010 / csl HKT.AI Super Assistants Plans (each a “Designated Service Plan” and collectively the “Designated Service Plans”) are available to new customers and selected renewing customers who subscribe for a 36-month commitment period. A monthly administration fee of HK\$18 applies.
- (2) To qualify for these offers, customers must subscribe to a Designated Service Plan with a 36-month commitment period. Customers who terminate the service for any reason before the commitment period ends must pay an early termination charge equal to the total remaining monthly fees at the original rate for that commitment period. All offers cease upon termination or expiry of the Designated Service Plan. Customers who terminate their mobile service before the end of the commitment period are deemed to have forfeited the relevant offers. CSL Mobile Limited (“CSL”) accepts no liability for the customer’s forfeiture of this entitlement.
- (3) For the terms and conditions of HKT.AI services, please visit https://www.hkcsl.com/zh_HK/hkt-ai.
- (4) “5G” service plans operate on the 5G network and are available only within designated 5G coverage areas using designated compatible devices. Actual speeds experienced by customers will be lower than the network specifications and will vary according to the device, location, network conditions and other factors. Outside 5G coverage, mobile services are provided over 3G / 4.5G.
- (5) The monthly basic or additional data allowances under the Designated Service Plans may be used for tethering and peer-to-peer (P2P) functions, including BitTorrent. Where customers have supplementary or additional SIM cards, only one of the primary, supplementary or additional SIM cards may use tethering and P2P at any given time. If customers use data services in breach of these conditions, CSL may immediately suspend or terminate the service without prior notice. CSL also reserves the right to levy charges at its prevailing rates.
- (6) Chinese Mainland and Macao Roaming Data Package
 - This service is available to consumer customers on Designated Service Plans who have registered for IDD, roaming services and Data Roaming Day Pass, and is subject to the relevant terms and conditions. If customers have not registered for IDD and international roaming, or have also requested suspension of mobile data roaming, subscribing to the Chinese Mainland and Macao Roaming Data Package constitutes consent to activate IDD, roaming and mobile data roaming services.
 - The included allowance is for use in Chinese Mainland and Macao only. Where the Chinese Mainland and Macao Roaming Data Package includes “3GB or another specified data allowance per month”, that allowance is valid only in the relevant billing month. Any unused balance expires in that billing month and cannot be carried forward.
 - Where customers hold the Chinese Mainland and Macao Roaming Data Package, a Chinese Mainland Roaming Data Offer Package (with shareable or non-shareable allowances) and a Greater China Roaming Data Package at the same time, data roaming usage in Chinese Mainland or Macao is deducted in this order: first from the non-shareable Chinese Mainland Roaming Data Offer Package, then from the Greater China Roaming Data Package, then from the shareable Chinese Mainland Roaming Data Offer Package, and finally from the Chinese Mainland and Macao Roaming Data Package.
 - Unless otherwise stated, this service cannot be combined with other discounts, promotions or offers. This service cannot be transferred or exchanged for cash

or other products or services.

- Customers who terminate their mobile service before the end of the commitment period are deemed to have forfeited the relevant offers. CSL accepts no liability for the customer's forfeiture of this entitlement.
- Customers who terminate this service early during the commitment period must pay CSL an early termination charge equal to the total monthly fees remaining for that service's commitment period.

- (7) Once monthly data usage exceeds the monthly allowance, the csl HK\$518 / 618 and 1010 HK\$579 / 679 Local Service Plans will have their subsequent local mobile data speed capped at 3Mbps. For the 1010 HK\$559 / 859 Global Service Plans, once the monthly shared data allowance is exhausted, customers may continue to use data under that allowance at a maximum speed of 512kbps. Actual speeds and the data experience depend on the local roaming network. Data roaming under the above Service Plans is available to consumer customers who have registered for IDD, roaming services and Roaming Data Pass, subject to the relevant terms and conditions. If customers have not registered for IDD and international roaming, or have also requested suspension of mobile data roaming, subscribing to the above Service Plans constitutes consent to activate IDD, roaming and mobile data roaming services. An SMS notification will be sent when monthly usage reaches the threshold at which the speed cap applies. Actual speeds experienced by customers will be considerably lower than the maximum download speed and will vary with internet conditions, server speed, network performance, coverage, location, the computer or device used, hardware, software and other factors.
- (8) The calculation and redemption of Clubpoints are subject to the terms and conditions of Club HKT Limited (The Club). Please visit www.theclub.com.hk for details.
- (9) CSL reserves the right to terminate or amend any of the above promotional offers and their terms and conditions at any time without prior notice. Unless otherwise stated, this promotion cannot be combined with other discounts, offers or promotions. CSL reserves the right to make the final decision in the event of any dispute.
